# UNDERSTANDING THE GAME OF WATER POLO

Water Polo can be a confusing game for spectators. The whistle is constantly blowing and the play never stops, even when someone is ejected for a penalty. In addition, there are many misconceptions about the game, including how the players keep their horses swimming. Well hang in there, because the following information should help to make the picture much clearer.

## General Information

1. Each team has six field players and a goalie.
2. Field players can only use one hand to touch the ball, goalies two.
3. Games consist of 7-minute quarters for club divisions, 8-minute quarters for varsity divisions.
4. The object of the game is to score by placing the ball completely in the goal. Players may move the ball by swimming or passing.
5. Teams may substitute after a goal is scored, during a time-out or during the play from the ejection area.
6. Each team receives three time-outs and one 20-second time-out per game.
7. Shots blocked out of bounds by defensive players result in the defensive team receiving possession. If a defender uses two hands to block a shot, the offensive team receives a penalty shot.

## Fouls

When an infraction of the rules occurs, the referee will point in the direction of the team taking possession, while blowing his whistle. The ball is put back into play with an action called a free throw. This means the player gets three seconds of free time to throw the ball to another teammate or swim it up the pool. A player cannot shoot a free throw unless outside the five-meter line. If the ball is not put into play within three seconds, the other team takes possession.

Fouls can be ordinary or major. Ordinary fouls are best understood as minor fouls. For example, a defender may reach over an opponent's back to get at the ball while facing away from the goal. The penalty for an ordinary foul is a free throw for the opposing team.

Major fouls are more severe and are penalized accordingly. For example, when a defender fouls an opponent too aggressively, or from behind when the opponent is facing the goal, the defender is ejected for 20 seconds (players may reenter the game if their team recovers the ball before the ejection time is up, or if the opposing team scores). When the foul occurs within five meters of the goal and the referee believes the player had a high chance of scoring, the opposition shoots a penalty shot. Major fouls can also occur through disrespect to the referee or when a player interferes with an opponent's free throw. Players may only receive three major fouls before elimination.

If all of this has you totally confused, just sit back and enjoy the game. The easiest way to follow the play is by watching the scoreboard. If your team is ahead at the end, great! If not, well consider that you have expanded your horizons. When the game is over, you can at least explain to your friends that the horses never get wet.

### ***CWPA Sportsmanship Statement***

The CWPA and the NCAA promote good sportsmanship by student-athletes, coaches and spectators. We request your cooperation by supporting the participants and officials in a positive manner. Profanity, racial or sexist comments, or other intimidating actions directed at the officials, student-athletes, coaches, event personnel or team representatives will not be tolerated and are grounds for removal from the site of competition. Also, consumption or possession of alcoholic beverages and tobacco products is prohibited.

## ***Affiliate Organizations***

There are many organizations affiliated with the sport of water polo and the landscape can be somewhat confusing when trying to sort out which entity offers what services. To make matters a little easier to understand, the organizations can be divided into two basic groups: scholastic and non scholastic. The scholastic organizations are those that have some affiliation with the educational system. These include college, high school, junior college and middle school teams, as well as their respective administrative bodies that offer competitive leagues and support. In this category one would find state sanctioning organizations, the National Collegiate Athletic Association (NCAA), the National Association for Intercollegiate Athletics (NAIA) and all the collegiate conferences recognized by the NCAA or NAIA. Each individual organization operates independently with its own governing structure.

The NCAA and the NAIA are two organizations that serve a unique position. They each provide a supervisory role for their member schools. The colleges and universities that are members of each respective organization choose to establish and follow a set of guidelines that govern competition. Specifically, these guidelines include eligibility, academic progress for their student-athletes, competitive rules, championship guidelines, recruiting and financial aid.

Schools that become members of one of these organizations agree to abide by the rules and principles established within the organization. The NCAA and NAIA provide oversight for the varsity teams on campus, not the collegiate clubs.

In addition to the NCAA and NAIA, there are conferences that operate for the purpose of arranging competition for their member institutions. Some conferences, like the Big East, Ivy League or Atlantic Coast Conference, handle multiple sports, while others like the CWPA handle a single sport. With respect to water polo, all clubs that are eligible for the National Collegiate Club Championship are members of the CWPA. To understand the difference between the league and the NCAA or NAIA, think of the conference on a smaller scale performing similar functions for its member institutions. The conference works with the national governing bodies (NCAA and NAIA) to help provide competitive opportunities and services, yet remains an independent organization with its own governing system and budget.

Non-scholastic organizations include all other entities that provide the opportunity for people to be involved in the sport outside of an educational institution. These include YMCAs, Boys & Girls Clubs, parks & recreation programs, privately organized clubs, township/city programs and independent organizations like American Water Polo. United States Water Polo fits under this category as well, serving as the National Governing Body for the sport. They are also responsible for supporting and training Olympic teams for men and women.

For more information about any specific organization, contact the CWPA office at 610-277-6787.

## ***History of the CWPA***

The Collegiate Water Polo Association originally began as the Mid Atlantic Conference, founded by Dick Russell in the 1970's. Its founding membership included teams from Maryland, Pennsylvania, New Jersey, and New York.

The conference relied on volunteer coaches until 1990, when it hired a commissioner to perform basic scheduling for the 15 member teams. Officiating assignments at the time were performed by an independent organization called the Eastern Water Polo Referees Association (EWPRA).

The next major milestone occurred in 1993, when the Southern and New England Conferences merged into the Mid Atlantic. The new structure combined all of the varsity teams in the East, along with the few sport clubs in existence at that time.

During the 1995 season, the conference received its first major challenge, as the organization experienced a strike by its officiating core. This strike ultimately resulted in the organization establishing its own officiating bureau, assuming responsibility for all of its officiating assignments. The conference hired Tere Ma as its inaugural Director of Officials and Loren Bertocci as its first Technical Director. These two individuals laid the groundwork for the Officiating Bureau that exists today.

The conference has grown over the years as well, with several key milestones marking the progress. In 2001, the women split into collegiate club and varsity competition for the first time as the CWPA expanded to over 200 teams. This rapid growth forced a move to larger office quarters in 2003, with the CWPA heading across the river to Bridgeport, Pennsylvania where it currently resides. In 2005 six women's teams were launched to help establish water polo as a conference sport in the Metro Atlantic Athletic Conference, giving these institutions an automatic bid to the NCAA Championship and helping the sport grow in new areas. In 2006 the Officiating Bureau took a leap forward with the establishment of a Technical Committee to oversee education, evaluation, and assignment of referees. Online education for referees was initiated at this same time allowing for greater access to all of our officials.

From a media standpoint, 2009 witnessed the launch of a new website and in 2010 we streamed games live for the first time with a one-camera set-up. In 2012 the conference made a large commitment to multimedia in both equipment and staff to better serve the membership. One outgrowth of this decision changed the live streaming of our championships to full-blown productions using three cameras, instant replay and a live announcer for play-by-play, similar in style to a television broadcast. It also provided the means to offer more competition streamed throughout the country, much more interactive content on the website, as well as increased online education.

Today the conference fields over 280 teams nationwide, with four full-time staff members, as well as interns in sports photography, multimedia, sports information, marketing and event management.

# COMPETITIVE FORMAT

The Collegiate Water Polo Association (CWPA) is comprised of two classes: varsity and sport club. Varsity membership competes as two separate conferences, while club membership is divided into divisions based on geography.

## Varsity Class

The varsity teams compete in either the Northeast Water Polo Conference and the Mid-Atlantic Water Polo Conference which both utilize the CWPA as their administrative organization. Based on the strength of the teams and the format determined by the NCAA, the winning teams have an opportunity to qualify for the National Collegiate Athletic Association (NCAA) Championship in December.

### *Northeast Water Polo Conference*

Teams play a double round robin schedule within the division to determine regular season rankings. All teams attend the championship, with the seeding determined by the won/loss records during the season.

### *Mid-Atlantic Water Polo Conference*

Teams play double round robin schedule in the Eastern Region and a single round robin schedule in the Western Region. Western teams attend their own championship, with the top team moving on to the Mid-Atlantic Championship. All Eastern Region teams attend the championship, with the entire field seeded by the division's coaches.

## Sport Club Class

Teams are divided into divisions based on geography, travel concerns and other conference affiliations of some programs (i.e., the Big Ten Division). The top team from each division championship qualifies for either the Division III National Collegiate Club Championship or the National Collegiate Club Championship.

### *Atlantic Division*

Teams play a double round robin schedule over two weekends. All teams attend the championship tournament, with seeding based on the regular season won/loss records.

### *Big Ten Division*

Teams play a single round robin schedule over two weekends plus additional seeding games drawn at random. All teams attend the championship tournament, with seeding based on the regular season won/loss records.

### *Colonial Division*

Teams play a single round robin schedule over two weekends plus additional seeding games drawn at random. All teams attend the championship tournament, with seeding based on the regular season won/loss records.

### *Florida Division*

Teams play a single round robin schedule over two weekends plus additional seeding games drawn at random. All teams attend the championship tournament, with seeding based on the regular season won/loss records.

### *Great Lakes Division*

Teams play a single round robin schedule. Teams compete in two of three regional weekends. All teams attend the championship tournament, with seeding based on the regular season won/loss records.

### *Heartland Division*

Teams play a single round robin schedule over two weekends plus additional seeding games based on regional tournament location. All teams attend the championship tournament, with seeding based on the regular season won/loss records.

### *Mid-Atlantic Division*

Teams are divided into two brackets based on ability, each with their own championship. Both brackets play a single round robin schedule over two weekends plus additional games drawn at random. The additional game in the "A" division is considered exhibition, while the game counts toward "B" division records. The winner of the "B" division has the option of moving into the top bracket for the "A" championship. The "B" team can not move into the "A" Championship this year due to both championships occurring on the same weekend.

### ***Missouri Valley Division***

Teams play a single round robin schedule over two weekends plus additional seeding games drawn at random. All teams attend the championship tournament, with seeding based on the regular season won/loss records.

### ***New England Division***

Teams play a single round robin schedule over two weekends plus additional seeding games drawn at random. All teams attend the championship tournament, with seeding based on the regular season won/loss records.

### ***New York Division***

Teams play four games within their region, followed by a crossover event where they compete against teams they did not face the previous weekend. Every team attends the championship, with the top four teams from the East Region and top three teams from the West Region compete for First Place while the remaining four play round robin for final places. Seeds are based on won/loss records.

### ***North Atlantic Division***

Teams play a double round robin schedule over two weekends. All teams attend the championship tournament, with seeding based on the regular season won/loss records.

### ***Northwest Division***

Teams are not required to attend all three weekends. Those teams interested in qualifying for nationals must attend at least one regional and the championship. Otherwise, a team can decide to attend one, two or all three weekends. Seeding at the championship is based on a won/loss percentage.

### ***Pacific Coast Division***

Teams play a single round robin schedule over two weekends plus additional seeding games drawn at random. All teams attend the championship tournament, with seeding based on the regular season won/loss records.

### ***Rocky Mountain Division***

Teams play eight opponents drawn at random based on the two of the three regional weekends they attend. No team plays an opponent twice. All teams attend the championship tournament, with seeding based on the regular season won/loss records.

### ***Sierra Pacific Division***

Teams play a single round robin schedule over two weekends. All teams attend the championship tournament, with seeding based on the regular season won/loss records.

### ***Southeast Division***

Teams play a single round robin schedule over two weekends plus additional seeding games drawn at random. All teams attend the championship tournament, with seeding based on the regular season won/loss records.

### ***Southwest Division***

Teams play a single round robin schedule over two weekends

plus additional seeding games drawn at random. All teams attend the championship tournament, with seeding based on the regular season won/loss records.

### ***Texas Division***

Teams play four games within their region, followed by a crossover event where they compete against teams they did not face the previous weekend. Every team attends the championship, with the top eight teams competing for First Place while the remaining four, plus the loser of the First Seed versus Eighth Seed, play round robin for final places. Seeds are based on won/loss records.

### **Tie Breaker System - All Situations**

If at any time two teams are tied in record or in goal differentials as you walk through the tie breaker system below, the result of their head-to-head competition breaks the tie.

#### ***Tie Breaker System - Two Teams***

If the teams each beat one another, the goal differential in their games is used to break the tie. If the goal differential in their contests against one another is the same, the total of goals scored against each other is used. If the total of goals scored between the teams is equal, the differential for all common opponents seeded higher is used. If no common opponents are seeded higher, the goal differential against the highest seeded common opponent is used.

#### ***Tie Breaker System - Three or More Teams (for seeding championships)***

If more than two teams are tied in won/loss records, goal differentials among the teams tied serves as the tiebreaker. If two teams are tied in goal differentials, head-to-head competition breaks the tie. If the goal differential in their contests against one another for all teams is the same, the total of goals scored against each other is used. If the total of goals scored between the teams is equal, the goal differential between common opponents seeded higher will be used to determine ranking. This may require averaging the goal differential per game if the number of games between common opponents is unequal. Should teams be tied in won/loss record and they have not played each other, goal differentials against common opponents that are seeded above them are used. If no common opponents are seeded higher, the goal differential against the highest seeded common opponent is used.

#### ***(for advancement w/in championships)***

If more than two teams are tied in won/loss records, goal differentials among the teams tied serves as the tiebreaker. If the goal differential in their contests against one another is the same, the total of goals scored against each other is used. If the total of goals scored between the teams is equal, their original seeding will serve as the tiebreaker. If the totals are tied at any time between two of the three teams, the tie is broken by their head-to-head result.

#### ***Goal Differential***

Goal differential is a term used to describe the difference between goals scored against an opponent and the number of goals scored by an opponent against a particular team.
